Notice on the Issuance of Stock Options

Pursuant to Article 370 of the Companies Act of Japan and Article 25 of Articles of Incorporation of Z Holdings Corporation (hereinafter "Company"), the Company determined today the terms and conditions of share acquisition rights that will be issued in the form of stock options to the directors, officers and employees of the affiliated company of the Company, and resolved to solicit subscribers for the said stock acquisition rights, etc.

Please note that the amount to be paid the stock acquisition rights will be determined by the allotment date of the stock acquisition rights (scheduled for March 31, 2021). Details are as follows.

I. Reason for the issuance of stock options

As announced by the Company and LINE Corporation (currently A Holdings Corporation, hereinafter "LINE") in "Announcement Regarding Definitive Agreement on Business Integration" dated December 23, 2019, and as announced by the Company in "Opinion Statement on the Tender Offer of the Company's Shares by LINE Corporation" (Japanese only) dated January 20, 2021, the Company will issue stock options which will cover the shares of common stock of the Company as part of the incentive policy towards the directors, officers and employees of LINE and its affiliated companies.

If "a stock option program that is approximately 10.8% of the total issued shares" implemented as LINE's three year incentive policy, is issued as stock options which will be covered by the shares of common stock of the Company, this will be equivalent to around 3.8% of the total issued shares of the Company as of March 1, 2021 (3.9% if treasury stocks are excluded). Out of this, if all of the stock options announced today are exercised, the amount of shares of common stock of the Company that will increase as a result will be equivalent to around 2.6% of the total issued shares of the Company as of March 1, 2021 (2.6% even if treasury stocks are excluded). The future issuance of stock options under the three year incentive policy has not been determined at this time, and will be announced as soon as it is determined.

These stock options, including the aforementioned undetermined ones, will contribute to the enhancement of the corporate value of the Company. Therefore, we believe that the impact of the dilution of shares due to the issuance of these stock options will be within a reasonable range.
